Welcome to Bastia

LIVE TO THE RHYTHM OF THE CITY

Gateway to Corsica, Bastia offers the visitor its authentic beauty: its colorful buildings with slate roofs, its art de vivre, its traditions, its immense artistic and cultural heritage make it a city with deep Mediterranean charm. From the vast square **Place St. Nicolas** to the **Marchet place**, in the shade of century-old sycamores, it is wonderful to stroll in small walk-only streets, bordered by fancy boutiques where Corsican-made products are exposed with brio.

The typical small streets of **Terra Vecchia** meander up to the handle of the **Vieux-Port**, unavoidable cradle of the city and meeting place of fishermen and leisure lovers. The lively terraces of restaurants and cafes are an invitation to a relaxation break, before going to the quiet **garden Romieu**, leading directly to the **Citadelle** neighborhood, which houses the **Palais des Gouverneurs**, where are exposed the museum's collections et offers a superb panorama from its **hanging gardens**.

DISCOVER

U SPASSIMARE

U Spassimare, a gentle lane, stretching like a ribbon from the Marina of Toga to the Arinella Beach, offers a beautiful stroll along the seafront of Bastia.

This new development represents an unusual tourist itinerary allowing you to discover :

- the famous **Place Saint Nicolas**,
- the picturesque **Old Port** via the Quai des Martyrs,
- the **Aldilonda**, a footbridge over the waves offering a breathtaking view,
- and the **Arinella beach**, and its water leisure base.

If you are looking for a moment of relaxation, **U Spassimare** will take you to **the Figaghjola beach**, a small pebble beach on which the Church of Saint Joseph seems to watch over. A little preference for sandy beaches, continue our walk to the **Arinella beach**, equipped with games for children, but also with a **nautical base** to satisfy your desire for **active leisure**.
